

CERAMIQUE SERIES

Beyond Imagination

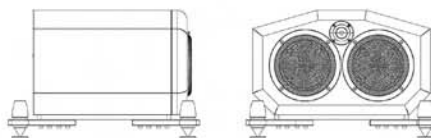

CERAMIQUE SERIES

The Ceramique Centre Channel has been developed for Home Cinema use as well as for audio 5.1 or 7.1 surround systems. Two ceramic units handle the mid/low, a Kharma/Focal driver the HF.

This Ceramique is also available as Reference Monitor speaker, whereby the internal is being treated with a special substance improving the weight and acoustical properties. Also a better tweeter and therefore other filter are being used.

Technical Specifications

Type	CE-CT1.0
System	2-way
HF Driver	25 mm titanium dome
Mid/ Bass Driver	2x 165 mm concave ceramic
R.M.S. Power (W)	200 W
Dynamic power (W)	400 W
Frequency Range (Hz)	22-25 kHz
Efficiency (1W/1M/dB)	90 dB
Maximum SPL (dB)	108 dB
Impedance	8 Ohm
Connection	WBT connectors

Dimensions	
Height (in)	13
Depth (in)	19
Width (in)	24
Weight (Kg)	12 Kg

The seven standard colours	
1. Piano Black 2. Jewel Green 3. Aubergine 4. Bronze	
5. Champagne 6. Diamond Black 7. Lapis Lazulli Blue	

Optional features	
* Ceramique Reference Monitor features: Use of silver coils in crossover.	
Advised external cable: Kharma Cable (pure silver/gold conductors).
