

CERAMIQUE SERIES

Beyond Imagination

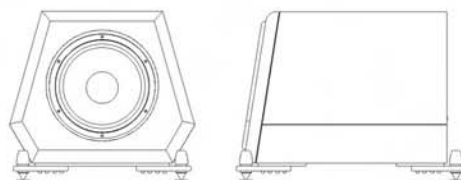

CERAMIQUE SERIES

At the Home Entertainment 2004 show the latest Kharma Ceramique Sub was launched and welcomed with awe. Kharma has succeeded in creating a subwoofer that fills up the low in such a way that it is not too present. It does not add sound, it completes the sound.

With this active system you will have the option to have your receiver head the sub or to adjust the parameters yourself to your own requirements.

Technical Specifications

Type	CE-SB-1.0
System	active Sub
HF Driver	25 mm diamond dome
